Jerry Branch sets up a model plane and replica aircraft carrier.

Columbia (WLTX) -- Thursday at the Columbia Airport a group of radio controlled airplane enthusiasts gathered to reenact a flight by the Doolittle Raiders.

The R.C. Plane is being hand delivered from pilot to pilot all across the United States, in a effort to promote the hobby and salute our current servicemen and women.

Thursday, after a few tests runs, the plane successfully took off on an small replica aircraft carrier at the airport.

The flight lasted a few seconds before making a nice landing.

The small model plane is in day 288 of its tour and has already travelled 4417 miles.

According to Jerry Branch of Larks R.C., the plane will be featured at the remote control vehicle enthusiast club until Saturday, and then it will be

handed off to a Summerville pilot.

For more information about Larks R.C. go to their website at
